
QHC Full Cassette Awning

QHC Full Cassette Awning

Basic introduction of the product

The full box design allows the fabric and curved arms to be completely stored in the box, providing full protection. The streamlined appearance and the hard-line architecture complement each other, creating a perfect coordination.

Extending the living space to the outdoors, creating a more comfortable and romantic leisure area, adding a relaxed and carefree feeling to life, and highlighting individuality, nobility and elegance!

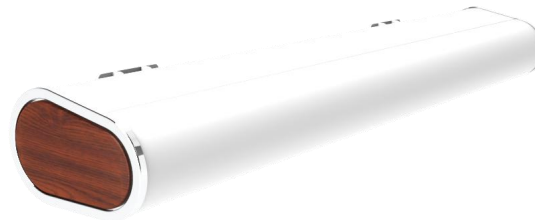

QHC Full Cassette Awning

Cassette Awning

Basic introduction of the product

Fading fabrics

The box body and the arm are made of aluminum alloy,
which is strong and durable,
high-end and beautiful,
and high-quality electrostatic powder spraying

Arch bridge chain arm is
stainless
Not easy to break and more
durable arm tube
Embedded lighting system at
the bottom of the box

QHC Full Cassette Awning

Basic introduction of the product

Unique inner box design

The inner box design perfectly protects the cloth roll tube inside the awning box, which not only increases the service life of the fabric, but also enhances the beauty and sense of unity of the full box awning!

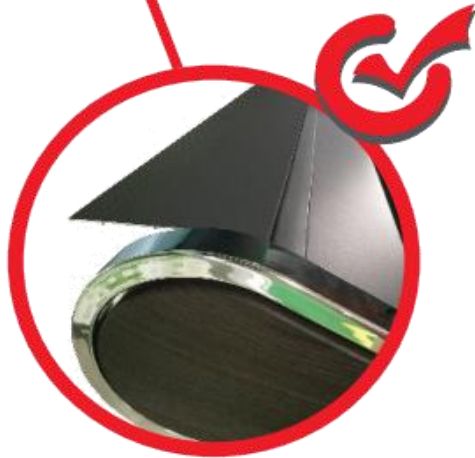

VS

The general awning has no inner box, and the cloth tube is exposed, which is not beautiful and shortens the service life of the awning.

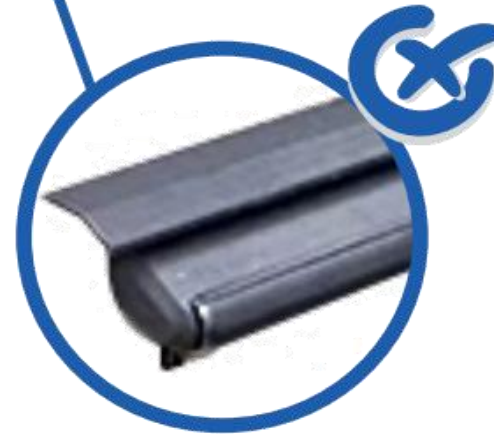

QHC Full Cassette Awning

Baffle and box body integrated

Leading full box baffle integrated
, beautiful and practical

Cassette Awning

VS

The general awning baffle is
separated from the body and
mounted on the wall, which is not
aesthetically pleasing.

QHC Full Cassette Awning

The appearance is simple and smooth, no screws are exposed

Leading full box,
no exposed screws or screw holes.

VS

Generally, there are screw holes in the box cover of the cassette awning, or the screws are exposed.

QHC Full Cassette Awning

Product application areas

The full-box awning is suitable for residential, commercial, club, villa and other living scenes .

Elegant curved appearance, integrated design; even at night, the simple and bright lighting system is still eye-catching; QHC full-cassette awnings must be the finishing touch of your building facade!

The size of a single set of full-cassette awnings can be 2-6 meters wide and 1.5-3.0 meters long (see the size specification table for details); with Spanish Sauleda imported fabrics, the colors remain fresh under the bright sunshine! QHC full-cassette awnings are your quality choice for high-end outdoor life!
